WIC Nutrition Education Promotes Healthy Choices

Total nutrition education sessions.....1,798

WIC nutrition education:

- Emphasizes healthy habits so families can eat better and stay active to prevent obesity and other chronic diseases.
- Promotes breastfeeding for at least the first year of life. And, helps working mothers breastfeed longer by providing breast pumps.
- Helps prevent early childhood caries by giving parents ideas for healthy snacks and stressing dental care by age one.

Statewide WIC Facts 2006

WIC served 273,000 pregnant women, new mothers and children under age 5

- 67% were from working families.
- 11,500 were women in the armed services, and women and children living in military households.
- Families received healthy foods, education and counseling on nutrition and physical activity, referrals, and breastfeeding support.

WIC contributed \$103 million in local grocery stores sales

- Each client received checks to purchase an average of \$58 a month in healthy foods.
- Families buy healthy food with their WIC checks at more than 700 grocery stores statewide.
- In addition, through the Farmers Market Nutrition Program, WIC families bought more than \$792,000 in fresh fruits and vegetables from local farmers in 30 counties.

WIC's breastfeeding rate is 4th highest in the nation²

- All pregnant women on WIC receive breastfeeding education and support; 80% of WIC mothers breastfed their babies.²
- Children who are not breastfed have higher rates of infections, allergies, asthma, diabetes, SIDS, and childhood obesity.³
- Breastfed infants are 80% less likely to die before age 1 than those never breastfed.⁴
- Mothers who breastfeed have lower rates of breast cancer and osteoporosis.³

In the past 30 years, Washington WIC has contributed more than \$1 billion in grocery sales and saved an estimated \$700 million in health care costs.⁵
